Observations... From Around Town

(BY JAY WHOZIT)

Well, folks, the secret is still a secret, and it won't be definitely known until to night at the hour of nine, just who the king and queen of the Annual Carnival Ball are, so if you're still curious, be there tonight at nine. This week is National Brotherhood Week, but you would hardly believe it after reading the news reports in daily press or even watching the doings of our own every day acquaintances... funny how we suddenly realize, when we look back at the end of the day at our actions of the past twenty-four hours, just how much more pleasure we might have given our fellowmen with a kind word or a helping hand, yes, there's more to this brotherhood stuff than meets the eye... don't forget the Red Cross Drive which starts on Tuesday, March first, be ready with your check or cash when the solicitor calls... we don't know whether you've seen it or not but Clayton Rand, editor and publisher of the "Guide" in Gulfport, has a daily column in the Times Picayune, and believe us it's good reading... the Hancock County Board of Supervisors, at their January meeting, passed a resolution calling for a county-wide, general registration of voters, which would make it compulsory for every person of voting age in Hancock County to register in order to be eligible to vote in any future elections... dates and places of registration will soon be announced by the County Registrar... we doff our hat to Mr. John Bell, who conceived the idea of reestablishing the once-popular Bay-Waveland Yacht Club, and he and a number of other prominent citizens have started a drive for funds to finance the building of a yacht club building and incidentals necessary for the operation of a live and up-to-date yachting association. Up to the time of this writing more than \$18,000.00 have been subscribed, a creditable amount indeed... this yacht club idea is a fine thing for Bay St. Louis and we hope the membership of the Chamber of Commerce will give as much aid as possible to this venture... Saint Augustine Seminary presented its eighth ordination class since it was founded in 1920, when three seminarians were ordained to the priesthood on Thursday morning of this week... George F. Stevenson is the first president of the newly formed Building Trades Association of Bay St. Louis... St. Stanislaus has closed its regular 1948 boxing season, with six wins out of seven meetings, losing only to Demonstration, of Hattiesburg, 4 to 3... Mike Murphy, son of Mr. and Mrs. Chas. Murphy and Miss Temple Perkins, daughter of Mr. and Mrs. H. G. Perkins, will reign as King and Queen of the P. T. A. Carnival Court and parade here on Mardi Gras, Tuesday, March first.

MISSISSIPPI GULF COAST ADVERTISING ASSOCIATION

No doubt a great many who own or operate businesses in and around Bay St. Louis, have received by mail a request to become members of the Mississippi Gulf Coast Advertising Association. This association was organized the latter part of last summer and is getting under way far above the expectations of the few business men along the Coast who conceived the idea and worked out a plan that is being followed. The goal set for 1949 is \$35,000.00. This money will be spent by an experienced advertising agency, and will sell the idea that we here on the Coast, have a year round vacation spot. Past experiences show that other communities, which had a great deal less to offer than we have, but by working together and pooling their resources, are now enjoying boom times. We, too, can do the same, but we first have to let people know that there is such a place as the Mississippi Gulf Coast. It is possible that general meetings will be held within the next few weeks, to explain, just what the Mississippi Gulf Coast Advertising Association is and it is hoped that every person in the community will turn out. Due notice of time and place of meeting will be given.

New Yacht Club And Building Planned For Bay St. Louis

Many times during the past several years, attempts have been made to reestablish the once-popular Bay-Waveland Yacht Club in Bay St. Louis, but plans never seemed to materialize, until last Wednesday, February 16th, when a group of interested citizens, headed by John Bell, met and discussed the possibility of organizing a new yacht club association. At this meeting it was proposed to raise approximately \$35,000.00 to finance this new yachting venture, and already, in less than a week, more than \$18,000.00 has been pledged, with prospects bright for raising the balance. A temporary committee, headed by Mr. Bell, has been named to formulate all necessary plans. Serving on this temporary committee, besides Mr. Bell, are Messrs Leo W. Seal, Lucien Gex, N. L. Carter, Chas. A. Breath, Jr., John J. McDonald, E. N. Spence, E. M. Brigance, and Jos. Kelleher. These men will work together until the necessary funds have been pledged, and then regular officers will be elected by the bond holders. When this has been done, plans and specifications for the new proposed yacht club building will be secured and construction begun as soon as humanly possible. If you want to be a charter member of this new civic organization don't wait to be called upon but just telephone any one of the above-named committee members and a representative will call to see you. This new civic movement is a great thing for Bay St. Louis and Hancock County and the benefits that will accrue from such an organization will more than compensate for whatever financial or physical aid you might give in its behalf.

NBC Performers Present Musical Program At Bay High Auditorium

It is seldom that Bay St. Louis music lovers are given the opportunity to hear such artists as they heard on last Thursday morning at Bay High auditorium. The two great performers are NBC artists touring the country and appearing in schools in all the states in the nation.

Robert Drumm, the gifted pianist, explained how the poll taken by the NBC Network showed them the kind of music America loves and are trying in their concert tours, to present the most popular music as voted upon by the American people.

The program was entitled "Music America Loves." The vocalist on the program was Nelson Sabin, star of the Lucky Strike program.

Mr. Drumm played the following numbers: "Jazz Numbers," George Gershwin; Military March, Rochmannoff; Polonaise, Chopin; Malaguena from Humoresque; Claire De Lune; Fire Dance.

Mr. Sabin sang "All Day on the

ORDINANCE NO. 121

AN ORDINANCE granting to United Gas Pipe Line Company, its successors and assigns, the right, privilege, power, franchise and authority, for a period Twenty-five (25) years from August 16, 1948, to lay, erect, construct, Replace, Relocate, Renew, Operate, Maintain and Remove Pipe Lines, together with any and all Equipment and Appurtenances in connection with said pipe lines, over, through, under, along and across Ulman Avenue and Front Street in the City of Bay St. Louis, Mississippi, for the purpose of transporting Natural Gas into, through and beyond the boundaries of said City.

Whereas, United Gas Pipe Line Company heretofore purchased from the City of Bay St. Louis, Mississippi, a natural gas transmission pipe line which extends from a point north of the City limits of the City of Gulfport, Mississippi, through Harrison County across the Bay of St. Louis and into the city limits of the City of Bay St. Louis, Mississippi, and United Gas Pipe Line Company determined that it was necessary and desirable to replace said pipe line crossing the Bay of St. Louis and to relocate and reconstruct the same north of the highway bridge across said Bay, and which bridge is

a part of U. S. Highway No. 90; and Whereas, upon said gas transmission pipe line being relocated it was necessary and desirable for the same to cross Front Street north of its intersection with Ulman Avenue, and to cross Ulman Avenue west of its intersection with Front Street to connect with the existing transmission line running in a westerly direction along Ulman Avenue; and

Whereas, prior to the relocation of said line, United Gas Pipe Line Company requested a franchise to cross Front Street and Ulman Avenue as above set out and the Mayor and Commissioners of the City of Bay St. Louis, Mississippi found and adjudicated that the relocation of said natural gas transmission pipe line would further protect and safeguard the supply of natural gas for the municipal gas distribution system and that it would be to the best interest of the municipality and its citizens, for a franchise to be granted United Gas Pipe Line Company to cross said street and to construct the facilities above described, and found that the sum of Twenty-Five and 00/100 Dollars, (\$25.00), was reasonable compensation and consideration for such franchise, which consideration was paid, and said Mayor and Commissioner thereupon duly adopted Ordinance No. 112 as shown by the records in the office of the City Clerk, but inadvertently failed to fill in the blank in Section 4 of said ordinance to show the agreed compensation and consideration to be paid, as above set out, and it being necessary and desirable to correct said error and omission, and the said United Gas Pipe Line Co. having offered to pay the City of Bay St. Louis, Mississippi the additional sum of Twenty-Five and 00/100 Dollars, (\$25.00), as consideration and compensation for said franchise and the adoption of this ordinance granting the same, and correcting the former error and omission; and

Whereas, the Mayor and Commissioners of the City of Bay St. Louis, Mississippi do hereby find and adjudicate that it is to the best interest of the municipality and its citizens for said franchise to be granted for the consideration and upon the conditions hereinafter set out.

Now, Therefore, Be It Ordained by the Mayor and Commissioners of the City of Bay St. Louis, Mississippi, as follows:

Section 1: That the City of Bay St. Louis, Mississippi, does hereby

give and grant unto United Gas Pipe Line Company, a Delaware corporation duly authorized to do business in the State of Mississippi, its successors and assigns, hereinafter called "Grantee," the right, privilege, power, franchise and authority to lay, erect, construct, replace, relocate, renew, operate, maintain and remove pipe lines together with any and all equipment and appurtenances, including, but not by way of limitation, telephone, telegraph and electric lines, conduits, poles, transformers, gas meters and regulators in connection with said pipe lines over, through, under, along and across Ulman Avenue and Front Street in the City of Bay St. Louis, Mississippi, for the purpose of transporting natural gas into, through and beyond the City of Bay St. Louis, Mississippi.

Section 2. That in the exercise of this grant, Grantee shall not unnecessarily or unreasonably impair or obstruct said Ulman Avenue and Front Street, and Grantee shall, at its own expense without unreasonable delay, make all necessary repairs to remedy any damage or to remove any obstruction caused by virtue of its operations hereunder; and Grantee shall use reasonable precaution to avoid damages or injury to persons or property, and shall hold and save harmless the City of Bay St. Louis, Mississippi, from all losses, damages or expenses arising out of the negligence of Grantee, its agents or employees, while exercising any of the rights and privileges herein granted.

Section 3. This franchise shall be for a period of twenty-five (25) years from August 16, 1948, and upon exercise by Grantee of any of the rights, privileges or powers granted by this franchise, it shall be irrevocable; but said franchise shall be non-exclusive.

Section 4. That as compensation and consideration for said franchise the Grantee shall pay to the City of Bay St. Louis, Mississippi, the sum of Twenty-five and 00/100 (\$25.00) Dollars, which amount the Mayor and Commissioners find and adjudicate to be reasonable, sufficient and proper under the circumstances.

Section 5. That the Mayor and Commissioners of the City of Bay St. Louis, Mississippi, shall make, adopt and enforce all ordinances necessary to protect the property and property rights of Grantee owned and operated hereunder.

Section 6. That for cause which is found sufficient and for the immediate and temporary preservation of the public health and safety in connection with the improvement and safeguarding of the municipal natural gas supply, this ordinance shall take effect and be in force from and after its adoption and passage.

The foregoing ordinance of the City of Bay St. Louis, Mississippi, having been first reduced to writing, was introduced in the form in which it was finally adopted by the Council and read by the Clerk at a regular meeting of the Council, and thereafter the same remained on file with the City Clerk for public inspection for at least two weeks before the final passage and adoption thereof. ORDINANCE NO. 120

AN ORDINANCE repealing, cancelling and setting aside Ordinance 113, of the City of Bay St. Louis, Mississippi, which was inadvertently adopted granting United Gas Pipe Line Company a Franchise to construct a Natural Gas Transmission pipe line across the intersection of Ulman Avenue and Front Street in the City of Bay St. Louis, Mississippi.

Whereas, Ordinance No. 112 was adopted by the Mayor and Commissioners of the City of Bay St. Louis, Mississippi, granting a franchise to United Gas Pipe Line Company to cross Front Street north of its intersection with Ulman Avenue, and to cross Ulman Avenue west of its intersection with Front Street, to connect with the existing gas transmission line running in a westerly direction along Ulman Avenue.

Whereas, it was at one time contemplated that said pipe line construction would cross the intersection of Ulman Avenue and Front Street, but said plan was abandoned in favor of the location described in said Ordinance No. 112, and through oversight, inadvertence and mistake said Ordinance No. 113 was adopted, and it appearing, and the Mayor and Commissioners finding that said Ordinance No. 113 should be cancelled and set aside.

Now, Therefore, Be It Ordained by the Mayor and Board of Commissioners of the City of Bay St. Louis, Mississippi, as follows:

How To Celebrate Your Wedding Anniversary

The "Cotton" Millers celebrated their Tin Wedding Anniversary Saturday. Everything had to be tin. Folks even ate off tin plates, and drank coffee out of tin cups.

When it was time to drink a toast to the "bride and groom," out came the final touch: ice cold beer in cans. And come the Millers' 15th anniversary (Glass) I expect we'll be toasting them with sparkling beer in bottles!

And I couldn't help thinking that there was a lesson for married folks in the way "Cotton" and his missus have gotten along together—in their policy of live-and-let-live, with never a criticism of each other's differences in taste.

From where I sit, it's due to two things: Temperance—as that moderate preference for beer suggests, and Tolerance—for their own differences of opinion—and for the tastes of others, whether applied to beer, to politics, or how to celebrate an anniversary.

POWER FOR MISSISSIPPI

In 1948, Mississippi Power Company generating plants produced 385,000,000 kilowatt hours of electricity.

This is over twelve times as much as the company's plants produced during 1944—only four years earlier. These hundreds of millions of new kilowatt-hours came from 60,000 horsepower of steam electric generating capacity put in service in 1945 and 1947.

This tremendous addition to the power supply in Southeast Mississippi is the result of years of planning and the expenditure of millions of dollars. More generating capacity will come into operation this year and in future years as the supply of electric energy is expanded to meet the needs of Mississippi's homes, farms and factories.

This is confidence in Mississippi's future expressed in the facilities to serve the needs of the future.

Electricity Does So Much—It Costs So Little.

Flag Raising Ceremonies At Waveland School Sunday Afternoon

Mrs. Louis Pate was mistress of ceremonies at a very impressive ceremony on Sunday afternoon which marked the raising of Old Glory over the Waveland Public School.

Mrs. Warren Carver, president of the American Legion Auxiliary unit 139, opened the program with a few words of explanation as to the reason for the occasion and said that the flag had been presented to the unit by Mrs. W. S. McIntyre in memory of her husband, the late Captain McIntyre, and that they in turn were giving it to the school to be dedicated to the memory of the deceased captain. Mrs. W. L. Bourgeois, chaplain of the unit offered the prayer. Mrs. McIntyre spoke briefly and said that she hoped the school would always give respect and obedience to the call of our colors. Mayor Garfield Ladner, welcomed the unit to Waveland.

Mrs. Pate presented the flag to Miss Mary Perkins, principal of the

school, who graciously accepted it in the name of her faculty and student body and said its significance and ideals would always be kept uppermost in the minds of the children.

Four Boy Scouts, Monroe and Milton Cuevas, James Seghers and Fred Cabell raised the flag and the group gave the Pledge of Allegiance. The Firing Squad of the American Legion, Henry Capdepon, Horace Ruhr, Robert Givens, Claiborne Ladner, Warren Carver, Lucas Pucheu, Bert Estapa and Warren Sick, fired the salute and the Colors were retired.

Captain McIntyre, in whose memory the flag was given, served in World War II in the European Theater and at the close of the war he and Mrs. McIntyre came to Bay St. Louis to make their home. He died more than a year ago in Bay St. Louis of a heart attack.

Farmers Urged to Order Kudzu for Early Spring Planting

Hancock County Soil Conservation District Commissioners are acting as Vendors for a bulk county order of Kudzu crowns this year.

The Kudzu must be planted by the middle of March. Soil Conservation District Commissioners wish to place orders by February 28th with the supplier for one large shipment for all farmers of the County, therefore, all farmers desiring Kudzu crowns, please place your order immediately with John S. Flora, AAA Representative or any of the Soil Conservation Service Technicians in Bay St. Louis Soil Conservation District Office.

The cost is \$10.00 per 1000, and the AAA pays \$8.00 per thousand for planting, making net cost to the farmer \$2.00 per thousand delivered to the farm.

Kudzu is planted for supplementary pastures and comes in especially good during dry summers when all other pasture grasses are burned up. Kudzu when fertilized and disced

during early spring makes excellent quality of hay.

Steep slopes, badly eroded hillsides, gullied lands are especially recommended for Kudzu.

Recommended planting for quick cover are 1000 crowns per acre in 12 feet rows apart, with plants 4 feet apart in the rows. If planted by AAA specifications using 500 crowns per acre, row spacings should be 25 feet apart, with plants 3 1/2 feet apart in the rows.

Additional use for Kudzu besides

grazing, it is a soil builder and keeps the land on steep hill sides from washing away.

Kudzu must be protected from livestock by fencing the area, however, if the area is within a field, the fence can exclude all livestock until

Home Demonstration Council Meets

The Hancock County Home Demonstration Council met Friday, February 11th. Dr. Shipp of the County Health Department spoke to the Council and asked their cooperation with the Health Department on the Tuberculosis X-ray project.

County Council officers were elected and are as follows: President, Mrs. E. G. Eccles; Vice President, Mrs. J. L. Saleeby; Secretary and Treasurer, Mrs. Oliva Pitts.

Plans were made for Home Demonstration Club members to visit Bellingrath Gardens.

Clubs represented at the Council meeting were: Bay-Waveland, Lakeshore, Clermont Harbor, Aaron Academy and Flat Top.

The Kudzu is well established and ready for grazing.

Fertilizing and cultivation is an important factor in establishing Kudzu. Six hundred pounds of basic slag and 100 pounds of potash, or 300 pounds of superphosphate, 2000 pounds of ground limestone, and 100 pounds of potash, should be applied per acre. Two tons of barnyard manure may be substituted for one-half of the above fertilizer recommendations. Cultivate Kudzu similar to cucumbers or watermelons, using interplanted rows of corn in between the 25 feet spacings of Kudzu. Keeping the corn clean-tilled until late spring will enable the Kudzu to spread faster.

ATTENTION — TIMBER OWNERS

TIMBER OWNERS, did you know that you can put nature to work planting trees for you? Trained foresters cut trees in such a way that nature will plant new ones where the old trees were taken out.

Are you planning to cut some timber? Why not consult your local public or private forester first? He may be able to save you the expense of hand-planting your cut-over lands.

7000 Horses POWER UNITED GAS COMPRESSORS

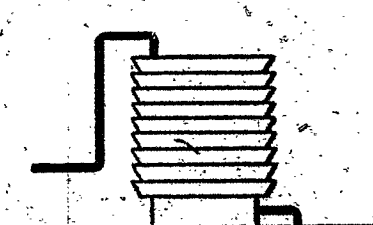

It takes a lot of horsepower to move natural gas through the 6,000 miles of pipe lines that form the United Gas transmission system. Sometimes the gas is under sufficient pressure when it leaves the wells to carry it to its destination 50 or 100 miles away. More often, however, it must pass through a compressor station, where it gets a boost along the lines to cities, towns and industries where it can be used. Operation of compressor stations at key points in the system is one of many important functions of the United Gas organization...all of which have the ultimate purpose of assuring a continued dependable supply of gas for our customers.

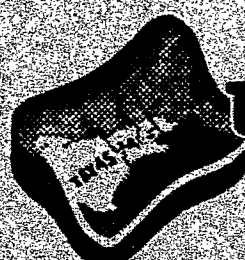

Field compressors are used to draw low-pressure gas from remote locations in a gas or oil field to a central gathering point.

Main line compressors step up the movement of gas along transmission lines, and are frequently installed at intervals of 50 to 75 miles.

Cooling towers are employed to supply engine cooling water and to cool the compressed gas. Temperature of the gas increases as much as 120 degrees, for example, when the pressure is increased from 250 to 500 pounds per square inch.

CHAMBER OF COMMERCE MEETING

Tuesday night, February 8th, the Hancock County Chamber of Commerce, sponsored a shrimp boil at Hotel Reed, the purpose of which was to pay homage to the newly elected city officials. Mayor Warren Carver and Commissioner Sylvan Ladner were present as well as some of the city employees.

President T. T. Robin acted as toastmaster and when called upon for a few remarks, the Mayor and Commissioner made very interesting

talks. Short talks were made by A. G. Favre, Dan Russell, H. W. LeTissier and others.

President Robin, read a letter sent in by Commissioner Bourgeois, in which he stated his regrets that he could not be present on account of illness, and in which he expressed great satisfaction to know that the members of the Chamber of Commerce were taking an interest in the affairs of the city. In fact, this was primarily the purpose of the get together. It is hoped that more

of such gatherings will be held and that a feeling of mutual understanding will develop among the citizens, so that there will be harmony in the community, which will in turn, make for better civic management. It is the duty as well as the interest of the Chamber of Commerce to lead in the promotion of this type of community life.

The present membership numbers one hundred and seventy. Surely, this is something of which we all should be proud.

GENEVIEVE HARRISON, REPORTER

As their scheduled games came to a close, the two Bay St. Louis High School's Basketball teams are taking in a few defeats, but they are still keeping their chances well sparked for a favorable showing in the run-up eliminations and a place in the finals of the Gulf Coast Tournament.

Wednesday night Feb. 16th St. Rose pulled into Pascagoula. St. Rose's girls took over their game with a 24-17 victory, but the boys were much off the basket as they lost 50-22. Friday found both schools trying to make a good showing. St. Rose played Randolph High School of Pass Christian here. With one more keener eye on the goal than their opponents St. Rose's girls won their game 17-15 with Odele Reed highest scorer for the game leading with 9 points. Following the boys tagged a runaway, 67-41 using first

and second teams, with Arnie Lanneaux scoring 23 points for high mark. But in Ocean Springs, Valena C. Jones' outcome was just the other way. The girls team fell back 46-19, and the boys were short in scoring also, losing 54-45. The Junior team brought home the only honor winning their game 22-14.

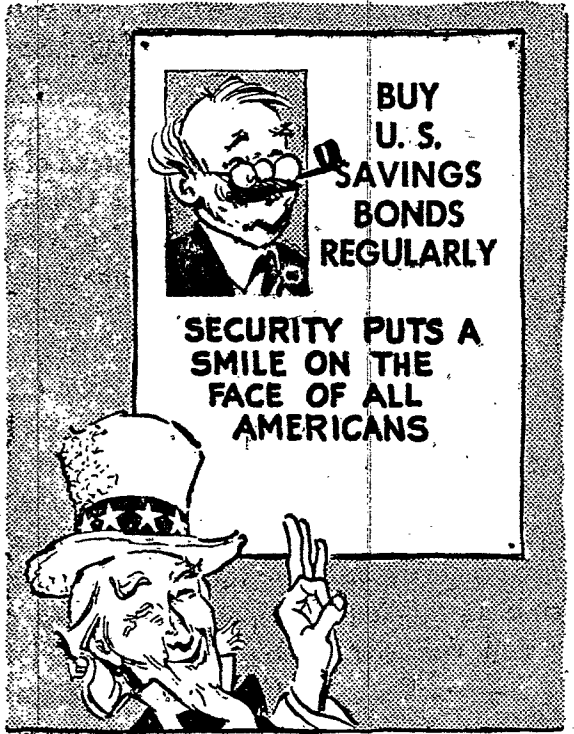

Sunday, St. Rose moved upstate into Hinds County, playing Holy Ghost High of Jackson, Miss., the girls had an easy time winning their game 32-6, but the boys were taken over 52-30. This was not a conference game.

Uncle Sam Says

Buying U. S. Savings Bonds is the best way I know to stop worrying about money. And if you persist in worrying, after starting to pile up money the sure, automatic way, the only worry you'll have is how best to spend it when you start cashing in after ten years.

Your government offers two great plans, both of them automatic and both profitable. They are the Payroll Savings Plan where you work, or, if self-employed, the Bank-Month Plan at your bank. If you can sign up for a \$37.50 bond each month they'll grow to \$4,998 in 10 years.

LABOR LEGISLATION

Ever since last November's Presidential Election, there has been much discussion of whether the results of that election constituted a mandate from the American people to the President and the Congress to carry out the President's Civil Rights Program and the repeal of the Taft-Hartley Act. Most Democrats, particularly those from the North and Far West, contend that it was a mandate. There are many Democrats, on the other hand, who contend the contrary that the President, upon the advice of his political advisors, stressed these matters in an effort to gain this large group of minority votes. They contend further that the election simply meant that the people of the country, enjoying a "full dinner pail," preferred President Truman over Governor Dewey.

However that may be, the Senate Labor Committee is busy conducting hearings on a bill to repeal the Taft-Hartley Act. On the question of the

repeal of the Taft-Hartley Act, I submit, for the readers of this column in my own Congressional District, the following statement which was recently mailed out by Congressman Ed Gossett of Texas to the people of his own Congressional District. The statement follows:

"A lot of pressure is being brought on the Congress at this time for the repeal of the Taft-Hartley Act. I have received more than a hundred letters from union men in our District, asking me to vote for such repeal. The repeal or amendment of this Act is going to be one of the most controversial issues before the

Yes, Black-Draught may help you when you feel lousy. That's why it has been a best-seller with four generations. unions. About all most union spokesmen object to in the Taft-Hartley Act is its restriction upon political contributions; its out-lawing of the closed shop, and its requirement of non-communist affidavits from union officials.

The requirement of a non-communist affidavit seems to me to be very important. Communists seek to get control of big labor unions in order to have power over industrial production. Union leaders also complain that employers are not required to make such affidavits. I would vote for an amendment to require such affidavits of employers. Members of Congress have to file such affidavits, as do most all government employees.

Much false propaganda has been circulated throughout the country concerning the Taft-Hartley Act. It has been ballyhooed as a "slave labor bill." The act is not a slave bill in any sense whatsoever. The act does not provide for compulsory arbitration in disputes over future working conditions; or for compulsory labor courts with final power to decide such disputes; or deny the ultimate right to strike in private employment; it places no bar on the maintenance of membership contracts; it does not prohibit industry-wide bargaining; it does not permit the issuance of labor injunctions on private petition. It places no real penalties on strikers.

Frugal President

When George Washington became president he was the richest man in the country, but no president was more frugal in the use of the people's money.

He refused to accept a salary for his services and insisted that the nation pay its debts and live within its income. In his Farewell Address, he warned:

"As a very important source of strength and security, cherish public credit. One method of preserving it is, to use it as sparingly as possible; avoiding occasions of expense by cultivating peace, but remembering also that timely disbursements to prepare for danger frequently prevent much greater disbursements to repel it—avoiding likewise the accumulation of debt, not only by shunning occasions of expense, but by vigorous exertions in time of peace to discharge the debts which unavoidable wars may have occasioned, not ungenerously throwing upon

posterity the burden which we ourselves ought to bear."

Whether in the government or with the individual citizen, extravagance is an economic sin. No individual and no nation long endured that lived beyond its means.

The secret of prosperity is production and thrift, and it is as true today as it was in the time of the Father of Our Country. This nation waxed great in strength and wealth and remained solvent because its people worked and saved and its government set the good example of a sound economy.

Many schemes have been sprung through the centuries to find an easy way to prosperity and security, but no substitute has ever been found for a common-sense economy. It was the frugal philosophy of Franklin and Washington that laid the firm foundation for the Republic.

VISIT BASS PECAN ORCHARDS AT LUMBERTON

On Feb. 22, 1949 the Sellers Vocational Veteran Class were visitors of the Bass Pecan Co. at Lumberton. They were treated in such a manner that it was their desire that we commend Mr. I. H. Bass, the president and all the employees with whom they had contact.

On entering the farm from Highway 11 one sees the shipping barn around which the major activity seems to be centered. In a certain respect this is true, for this is almost the end of a busy shipping season. (Some one just called for 7,000 fig trees.)

LAKESHORE JUNIOR GARDEN CLUB

The Lakeshore Junior Garden Club met on Thursday, February 17 at

However, after our visit through the stock and shipping area we were invited to a tour of the farm by Mr. I. H. Bass.

The sight of such a number of employees, and the general scale of operation brought exclamations from everyone. Mr. Bass explained the various operations carried out in the production of plants for the market. With due respect to everyone, there was none of us who felt that he had not learned something.

KING'S PARTY HELD EACH SATURDAY

The King's Night party originated on January 12, 1949, with a group of pre-teenagers and now each Saturday night there is a Kings Party at the home of the member who finds the pecan in his or her slice of the large King's cake which some mother has to provide to be served with other refreshments. And the host has to select his queen.

Last Saturday night John Reindl was host to the group and he chose as his queen Shirley Miller and strange as it may seem Shirley found the pecan in her slice of cake so she will be queen for next Saturday evening and she has to select her king.

There were approximately forty of these young people at this party, and they had a rollicking good time because the boys and girls indulged in whatever type of fun they preferred.

ENTERTAINS AT MORNING COFFEE PARTY

Mrs. Shelby Tucker entertained at her home on Wednesday morning from 11 to 1 p. m. at a coffee party complimentary to her house guests Mrs. John Van Schuick of St. Louis, Missouri, Mrs. Janey Schumway, who is visiting Mrs. D. G. Rafferty at Pass Christian and Mrs. Robert B. Phillips.

Mrs. Tucker carried out the Mardi Gras colors and Mardi Gras idea in decorations and refreshments and the three honorees were each presented with masks in the form of clown dolls as favors.

The table from which coffee was served was covered with a white dainty cloth and the centerpiece was arranged in the Mardi Gras colors.

Approximately fifty ladies called during the hours named, some of whom were from out of town.
